

Summer 2021 COVID Policy & Procedure Update

Thank you for supporting our COVID policies and procedures, which allowed us to put on a traditional recital with our full student body. At the core of the Academy's mission statement are the values of mind, body, and spirit, and the above-and-beyond measures we have taken have been with the single goal of keeping our staff, dancers, and families healthy.

However, community health guidelines are changing, so beginning with our Summer Term (July 5th) our policies will shift. Here's what will stay the same:

- Heightened cleaning and sanitizing procedures, including hand sanitizing stations throughout the building.
- Self-monitoring - everyone entering the building will continue to scan their temperature and we ask for your diligence in reporting any potential risk to our student body.
- Masks will stay on in all common areas, regardless of vaccination status.

Here's what's new:

- Discontinued verbal health screening.
- Masks will be optional for vaccinated dancers while taking class.
